VETERINARY SERVICES

Exceptional care by an exceptional staff

www.aikenpetvet.com

State of the art - State of the heart

Proud member since 1974

We treat your pet as we would our own

AAHA Accredited

Veterinary Services is proud to be an accredited member of the American Animal Hospital Association (AAHA) since 1974. AAHA regularly evaluates our hospital to ensure that we meet or exceed the association's standards for patient care, hospital services and equipment. AAHA standards are recognized around the world as the benchmark for quality care in veterinary medicine.

Wellness and General Medicine

The foundation of all medicine is wellness, and we believe an ounce of prevention is worth a pound of cure. There is no substitute for early detection and intervention. To that end, we provide comprehensive wellness examinations for all your companions' life stages. Routine care like vaccinations, heartworm and intestinal parasite testing, to more complex issues of dentistry, endocrinology, cardiology and cancer, our experience and compassion will ensure your pets' best care.

Surgery

Surgical services are an integral part of Veterinary Services. Our doctors have advanced training and experience with routine spay and neuters, soft tissue surgeries and orthopedic surgeries. We offer laser surgery to speed your pet's healing due to less pain, swelling and bleeding. When needed, we consult with and refer to Board certified Specialists. Pre-anesthetic blood work and further tests for high risk or geriatric patients help ensure a safer procedure, along with careful patient monitoring. We believe in post-operative pain management to ensure less stress, anxiety and pain.

Advanced Technology

- Digital radiography
- Laser surgery
- Anesthesia monitoring
- On-site laboratory for blood, urine and fecal analysis
- EKG
- Blood pressure monitoring
- Ocular tonometry
- Microchipping
- Nutritional counseling and prescription diets
- Pet portals – secure, private websites for online access

Dentistry

More than 85% of dogs and cats over four years of age suffer from dental disease. This leads to pain, tooth loss and, eventually, kidney and heart damage. Veterinary Services offers the latest in preventative and medical/surgical care for your pets' mouth. A professional dental cleaning gives your pet a perfect smile and a longer, healthier life.

Grooming

Our experienced (with more than 25 years) professional dog groomer produces beautiful results with a gentle touch. Anesthesia, under doctors' care, can provide for fractitious patients. We offer standard and personalized styling as well as medicated and flea baths. All designed to make your pet look and feel great!

Boarding

We provide a home away from home for your pets (dogs, cats, reptiles, birds and more) free of stress and anxiety and complete with personal attention. Our doctor supervised, climate controlled environment with exercise time and music will make your pets think they're on vacation. We will be glad to send you emails and pictures with messages from your pet every day! Cameras throughout the hospital and an employee who lives on site ensure safety and round-the-clock care.

Retail Space
